JUDGE D. W. PERLEY, of Pioche, who has just returned from California, purchased, while in that State, at a cost of \$10,000 in gold coin, one hundred head of young and pure-blooded Durham cows. They were purchased of the well-known breeder Mr. Steele, of Mayfield, Santa Clara county, and were shipped by rail from San Francisco to Pioche, where they were immediately driven from Toano to Judge Perley's ranch in the Steptoe Valley, where he already has some fine blooded animals, including a Durham bull of a high strain of blood. He has added 40 acres to his enclosed ground, his entire farm aggregating a thousand acres. Forty acres are in barley, which promises a good yield. It is gratifying to see such interest manifested in the agricultural development of Southeastern Nevada, and we hope Judge Perley's example will induce capitalists to embark in the same branch of enterprise. Though money may be made faster in other pursuits, it is the safest and surest of all investments.

DEUCE AND DISORDERLY.—Time has failed, after long years of experience, to impress upon old "Uncle Jim" the fact that tarantula juice alone "biteth like a serpent and stingeth like an adder"—or, if he has been sorrowfully impressed with the fact, he has so far lost self-control that he insists on being bit and stung, over and over. Yesterday he was again on the rampage, challenging the whole town to mortal combat, when he was unable to walk straight enough to mark out the course of a Virginia worm-fountain. Officer McKee felt it a solemn duty to cage "Uncle Jim," and he will today say all he can in extenuation of his drunken and disorderly conduct before Justice Stoughten. "A quiet, inoffensive man when not in liquor."

ANOTHER BOLD LITTLE ROBBERY.—The proprietress of a Main street lodging-house was surprised yesterday morning, on entering one of her rooms, to find that one of her transient lodgers had decamped, carrying with him all of the bed he had been sleeping on over night except one mattress and the bedstead. He had paid for his lodging the night before, very cheerfully, and retired early, to prepare himself, doubtless, by a good, long night's rest, for the arduous blanket-carrying task he had laid out for himself, and is now probably trudging along towards some new El Dorado of his imagination.

CAPTAIN BULLOCK, Superintendent of the Floral Springs Water Company, arrived from Santa Clara county, California, by Sunday's coach, and will stay with us permanently. He informs us that great improvements will at once be made in the works of the Company. New and larger tanks will be constructed, and meters will be placed in all houses in which they may be desired. Captain Bullock is a man of scientific attainments, as well as good practical sense, and we are confident that under his able supervision the business and facilities of the Floral Company will be put in the best and most flourishing condition.

FIRST FRUIT OF SOUTHEASTERN NEVADA.—Mr. A. Leman, of Snake Valley, his ranch being about a hundred miles north of Pioche, is extensively engaged in fruit raising, and will this summer be able to exhibit the first apples and peaches produced in Southeastern Nevada. The young fruit on some of his trees is maturing splendidly. These bearing trees are three years old. He intends to greatly extend his orchard the coming fall, being satisfied that fruit culture in this country can be made a success. Mr. L. also has some fine strawberry beds, and the berries are now ripening.

The beauty of mineral specimens from Bristol district is generally remarked. We were last evening shown one of surpassing attractiveness; on a base of sparkling crystallized copper were varicolored lime crystallizations of great brilliancy, the formations being of interesting and symmetrical shape. The Bristol ores are eagerly sought for the embellishment of cabinets, and we are inclined to believe it would pay to ship them, to be disposed of for that express purpose.

A THEORY "BESTED."—Yesterday we overheard a couple of home-made savants discussing the cause of the saline character of the water in Great Salt Lake. Said one, "Well, it's my opinion that there's an underground connection with the Pacific ocean, and it's filled with water from the Pacific." "But," said the other, "Salt Lake is 7,000 feet high in the ocean; what do you think of that?" "Think of it; why I think it bursts my theory all to hell!"

BRISTOL DISTRICT.—The smelting furnace has shut down for want of ore; and, a correspondent says, "ore is not taken out because San Francisco men choose to play the dog in the manger." There seems to be no doubt of the richness of the Bristol ores. If a "freeze out game" is being played, we hope the instigators will come out of it so affected in reputation as business men that they will never again be able to figure in mining enterprises.

DEPARTURE OF A. B. O'DONOHUE.—Mr. A. B. O'Donohue departs on this morning's stage for Fillmore and Salt Lake on important business. He may visit the Kanarra coal mines before he returns. John O'Donohue, Mr. A. B.'s brother, is operating very extensively in the Sevier country, and we have heard it intimated that the latter's trip is connected with important local enterprises about to be inaugurated.

MEMBERS OF THE HOOK AND LADDER COMPANY will bear in mind, as announced in our advertising columns, that they will have a regular meeting to-night at 8 o'clock. The time erroneously appeared in the first issue of the advertisement 3 o'clock. The Secretary of the Company informed that the important business is to be transacted.

CHARLEY ROLAND, a ranchman of Snake Valley, came in yesterday, bringing some barley to market of his own raising. He represents everything flourishing in his section. The late rains have brought the crops out magnificently, and bountiful harvests are expected.

RECEIVED BY ITS AUNT.—The infant son of T. F. Lawler, whose sad affliction is still fresh in the public mind, arrived safely at Palisade, under the care of its aunt, Mrs. E. E. Pierce, who now has the little cherub at her home in Carlin.

HAZARD'S POWDER, both kinds, 1,000 kegs, just received and for sale at the lowest rates by Clute & Young.

ABOUT twenty tons of grain arrived yesterday from Utah. The farmers are clearing their granaries for the incoming crops.

PRODUCE.—A load of eggs and a load of chickens found a ready sale at the hotels and restaurants yesterday.

MERCHANTS ARRIVED.—A number of teams arrived yesterday evening from Toano, loaded with general merchandise.

MR. LAZAR left Palisade yesterday for Pioche.

WHAT EVERY PERSON NEEDS.—We have often wondered why some of our inventive geniuses have not invented a casket, so cheap as to be within the reach of every one—something to deposit within the coffin, filled with precious relics, to be preserved for future generations. The most trifling things found on the site of Pompeii and in the ruins of the Holy City are treasured as valuable mementoes. This leads us to reflect on the wisdom of leaving something to aid those who may come thousands of years after us in searching after the history of existing generations. Certainly, in the present advanced state of the arts, something cheap and as durable as brass could be invented to be deposited with the mortal remains of all who pass away, such as a casket containing coin, printed matter, and the like fractional history of the age. The most practicable material would, probably be glass, the lid and main body to fit together by corresponding bevels on the edges, and the whole to be enveloped in sealing wax, or some indestructible material of that character, before being deposited. Such a device could be manufactured by the quantity as cheaply as common glass-ware. Is not the suggestion valuable?

THE VARIETIES.—The Varieties continue to draw crowded houses, and present new attractions and original local hits every night. It seems to be just the place the boys have been waiting for. The manager announces, we see, that he will soon have two more female performers in the troupe. The Varieties are having a successful run.

TO BE RESURRECTED.—An order was filed by H. Ward yesterday for a shroud and metallic coffin, to be used in conveying to relations in Iowa the body of a man named Hill, who died in one of the contiguous Utah settlements and was there interred, four or five weeks ago. We were unable to get full particulars.

THE COUNTY COMMISSIONERS.—The County Commissioners met in regular session yesterday, and transacted considerable business, but they adjourned at so late an hour that we could not get the full report in time for this issue. It will appear in our next.

We yesterday noticed some wagons on the street loaded with household goods, which had just arrived. Presumably they belonged to immigrant families from Southern California, as a number were en route for Pioche.

SOCIAL BALL.—J. B. Stieber & Co., proprietors of Concert Hall, Lacour street, will give a Social Ball on next Thursday evening. A general invitation is extended.

POSTPONED.—The hearing of the motion for a new trial in the case of the Raymond & Ely vs. the Hermes has been postponed until July.

AND NOW COMES THE PORTLAND COMPANY, claiming a big strike of rich ore in their mine. We have not had the pleasure of a personal observation.

LEFT.—Mrs. Kane, J. B. Atchison, G. Hearst and G. Maynard left Palisade on June 1.

G. Maynard, J. B. Atchison and Mrs. John Kane left Hamilton on yesterday's stage.

BORN.—On June 1, to the wife of Sanford Hall, a daughter. Eleven and a half pounds, heavy.

WORK was resumed on the Mazepa mine yesterday.

KITE-FLYING is becoming a popular amusement with Pioche juveniles.

THERE are now three Sunday Schools in Pioche, all of which are well attended.

ONE fellow-townman George C. Johnson is so ill as to be confined to his bed.
